

- DISTANCES SELON L'ARRETE SILO
- RETOMBEES EN CAS D'EXPLOSION
- ENSEVELISSEMENT EN CAS D'EXPLOSION
- ZONE DE SURPRESSION DE 50 mbar

A circular diagram with a central shaded region. A dashed line passes through the center of the circle, extending from the top-left to the bottom-right. The shaded region is a small, irregular shape located near the top-left of the circle, possibly representing a specific area of interest or a data point.
